FULL STACK WEB DEVELOPER

Recent graduate from SMU Full-Stack Web Development Bootcamp, a fast-paced, immersive 3 months program that taught proficiency in front end and back end technologies. Has a passion to continue to grow current skills sets while collaborating with a team to make user-friendly experiences for end-users. Excited to be a great asset to the team, organization, and most importantly to the client.

SKILLS

LANGUAGES: JavaScript, HTML, CSS, Node.js, MySQL (Sequelize), MongoDB

APPLICATIONS: Bootstrap, Github, Heroku, React, Express.js, Inquirer.js

HARD: Object-Oriented-Programming, API's, UX/UI Design, Optimization, Troubleshooting, Debugging, Creative Problem-Solving, Project-Management, Data-Structures, Database Management

SOFT: Creative, Well-Organized, Adaptive, Honest, Collaborative, Leadership, Team-Player, Emotionally Intelligent, Versatile, Effective Communication

EDUCATION

Universal Technical Institute (UTI): Associate of Occupational Studies Degree In Automotive Technology II

SOUTHERN METHODIST UNIVERSITY: Full-Stack Programming Professional Certificate (May 16, 2022)

PROJECTS

TECH IT OUT: The idea behind Tech It Out is for it to become a Reddit-meets-Stack Overflow social platform where programmers can interact with other programmers and engage in fun activities that make learning programming easier. We want it to be a one-stop-shop for beginners - where they can find helpful resources and start building their network.

- Tech includes: React.js, MongoDB, Mongoose Node.js, Sass, Express.js, Bulma.
- Worked in a team of 3 to develop and deploy a full-stack application in 6 days.

NERDS MEET NERDS: A dating app designed specifically for "nerds" of any type that allows a user to create a profile and "like" or "dislike" other users based on their pictures and bio. If a profile is "liked", the user has the option to initiate a conversation via direct messages.

- Focused on the front-end, creating different web-pages that display data dynamically.
- Utilized Bootstrap to create a clean and visually aesthetic user experience.
- Tech includes socket.io, MYSQL Database, JavaScript, Handlebars, Express.js, Node.js, CSS, Sequelize, dotenv, Bootstrap.
- Worked in a team of 5 to develop and deploy a full-stack application in 6 days.

WORK EXPERIENCE

Team Leader: United States Army - Fort Lewis McCord, WA

- Supervised three heavy equipment operators, ensured preparation, and assigned daily work
- Monitored performance, observed tasks, offered feedback and coached personnel to overcome skill gaps
- Reported to management and prepared incident reports
- Solved complex problems on a daily basis, ensured safety and efficient communication
- Performed as a member of a fire team during drills and combat
- Assisted in the mobilization of vehicles, troops and weaponry
- Contributed in the reconnaissance missions
- Used, maintained and stored combat weapons
- Awarded Expert Drivers Badge for driving government vehicle 8,000 miles with no accidents or traffic violations
